ABOUT US

Since 2018, Hush Music Party has been at the forefront of pushing culture and music boundaries to everyone that wants to dig deeper than the mainstream. What started off as a passion project has blossomed into a full community in which new music is shared, friendships are formed and creativity is celebrated. A group of likeminded tastemakers started Hush Music Party to have a safe space to experiment with music while educating the community on different genres, artists and producers from across the globe.

Today, Hush Music Party exists as a monthly event in Vancouver, Canada but is also known as a creative and high energy DJ collective that has had the pleasure of playing across North America and has been invited to showcase in festivals across Canada. Hush Music Party believes that music can heal the soul, bridge our differences, and be the building block for a better tomorrow.
